Penalties for Non-Compliance

Training is required by law! Penalties are imposed if you are not properly trained! You not only need initial training, but will require recurrent training to keep your certification current. The table below indicates recurrent training requirements

If you ship dangerous goods to, from or within the United States, employers and employees must adhere to the training requirements under 49CFR, Subpart H, Section 172.700.

Training requirements are based on the modes of transport & job function.

Recurrent Training Requirements:

US 49 CFR Every 3 Years	US 14CFR Every 24 Months	ICAO/IATA Every 24 Months	IMDG CODE Every 3 Years
Highway & Rail	Airline Personnel	Air	Ocean

On-site Seminars

Our on-site programs give you the ability to customize and combine any of our public classes to fit your training needs. The end result is a seminar that is strictly tailored to your products, job functions, shipping patterns and internal requirements. The seminar will be conducted at your facility- saving you time and money!

All training programs include instructor, program, course workbooks, certification and the use of actual regulations when applicable. DGI programs are fully guaranteed to satisfy job specific transportation training requirements of the U.S. DOT, ICAO/IATA and IMDG/IMO.

Generally, on-site training is cost effective when you have 7 or more employees who require similar training. Cost is based on a daily rate plus expenses. Daily Instructional Rate: \$1550: up to 12 students. Additional students: \$40 to \$80 per person. Additional expenses will include instructor transportation, hotel accommodations & material shipping.

Benefits of On-site Training:

- Saves money on tuition and travel expenses by having the instructor come to you.
- Saves time in the classroom, as programs are focused on your products.
- Customized programs designed to meet your product and training needs.
- Flexibility of location, hours and dates (including weekends)
- Ensures students learn at the same level and more staff can attend. Direct interaction with your instructor prior to the seminar.
- Classes available in Spanish for all modes of transport.

For complete details contact Frank Nerli at 805-473-0978, dgfn@dgitraining.com or request a quote via our website at www.dgitraining.com - click on "On-sites."

Webinars

Public Webinars:

A webinar is an online training course conducted in real time by an instructor. All that's required is a high speed internet connection and in some cases the actual regulations.

Classroom set-up may be used with a computer, LCD projector and speakers.

During the webinar you can interact and chat with your instructor.

An online exam is given at the conclusion of course.

All webinar programs include a downloadable student workbook.

Please note: IATA, 49CFR and IMDG webinars require you to have the current regulations. Should you need the current regulations we can recommend a supplier.

Private Webinars:

Private webinars are much like an on-site, but with the convenience of online training. Private webinars can be customized to meet the individual needs of your company, and may be a good option if you are considering an on-site, and ship the following:

- A single hazardous product
- A single hazard class

Private Webinar Pricing:

\$1550 per day, includes 10 students, \$55 per additional student up to a maximum of 30 students.

To determine if a Private Webinar is the right option for you, contact Frank Nerli at 805-473-0978 or dgfn@dgitraining.com.

Most DGI seminars are available as webinars!
