

IMDG Code Recurrent Training Pre-Test

This practice examination is a sampling of subject matter to be reviewed during the IMDG Code 1-Day Recurrent Course. You will need a current copy of the IMDG Code to answer the following questions. Should you struggle with these questions, it is strongly recommended that you attend the IMDG Initial course.

Directions: Please select the *most appropriate* answer to each question. If a reference is requested, please include the most complete (i.e., 1.3.1.1(a)) reference. A page number is not acceptable as a reference. _____

1. Are "Batteries wet, filled with acid" required to be packed in UN specification packagings?

- a. Yes
- b. No

Reference: _____

2. Ammonium persulphate and ammonium polyvanadate have been packed into the same closed freight container. All materials are properly marked, labelled, documented and placarded. Is this acceptable?

- a. Yes
- b. No

Reference: _____

3. UN2670 may be transported in a UN portable tank.

- a. True
- b. False

Reference: _____

4. -18°C is equivalent to _____°F.

- a. -37.8
- b. -57.8
- c. -27.8
- d. None of the above

5. Which of the following is the proper shipping name for UN2470?

- a. PHENYL ACETONITRILE, SOLID
- b. PHENYLACETONITRILE, SOLID
- c. PHENLACETONITRILE, LIQUID
- d. PHENYLACETONITRILE, LIQUID

6. Which of the following terms most accurately describes the minimum provisions for any packaging closure transported by vessel?

- a. Effectively closed
